Cobalt Sulphate

Material Safety Data Sheet

Conforms to ANSI Z400.1-2004 Standard (United States, Canada).

In case of emergency: CANUTEC (613) 996-6666

MSDS authored by: Kemika XXI Inc. + 1-450-435-7475 10/15/2006

2. Hazards identification

Physical state: Solid. (Crystals.)

Odor: Odorless.

Hazard status: This material is classified hazardous under OSHA regulations in the United States and the WHMIS Controlled Product Regulation in Canada.

Emergency overview: WARNING! CANCER HAZARD. CONTAINS MATERIAL WHICH CAN CAUSE CANCER. HARMFUL IF INHALED. CAUSES RESPIRATORY TRACT, EYE AND SKIN IRRITATION. MAY CAUSE ALLERGIC RESPIRATORY AND SKIN REACTION. MAY BE HARMFUL IF SWALLOWED.

Do not ingest. Avoid contact with skin and clothing. Do not breathe dust. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling. Risk of cancer depends on duration and level of exposure.

Routes of entry: Dermal contact. Eye contact. Inhalation. Ingestion.

Potential acute health effects

- Eyes: Irritating to eyes.
- Skin: Irritating to skin. May cause sensitization by skin contact.
- Inhalation: Harmful by inhalation. Irritating to respiratory system. May cause sensitization by inhalation.
- Ingestion: May be harmful if swallowed.

Potential chronic health effects

- Carcinogenic effects: Classified A3 (Proven for animals.) by ACGIH, 2B (Possible for humans.) by IARC [Cobalt sulphate]. Classified 2 (Reasonably anticipated to be human carcinogens.) by NTP [Cobalt sulphate].
- Mutagenic effects: Not available.
- Teratogenic effects: Not available.

Medical conditions aggravated by over-exposure

- Repeated skin exposure can produce local skin destruction or dermatitis. Repeated or prolonged exposure to the substance can produce lung damage. Repeated exposure of the eyes to a low level of dust can produce eye irritation.

See toxicological information (section 11)

4. **First aid measures**

**Eye contact**: Check for and remove any contact lenses. In case of contact with eyes, rinse immediately with plenty of water. Get medical attention.

**Skin contact**: In case of contact, immediately flush skin with plenty of water for at least 20 minutes. Get medical attention.

**Inhalation**: If inhaled, remove to fresh air. If not breathing, give artificial respiration. Get medical attention.

**Ingestion**: Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

**Notes to physician**: No specific antidote. Medical staff must contact Poison Control Center.

5. **Fire-fighting measures**

**Flammability of the product**: Non-flammable.

**Extinguishing media**

- **Suitable**: Use an extinguishing agent suitable for the surrounding fire.
- **Not suitable**: None known.
- **Special exposure hazards**: No specific hazard.
- **Special protective equipment for fire-fighters**: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. **Accidental release measures**

**Personal precautions**: Immediately contact emergency personnel. Keep unnecessary personnel away. Use suitable protective equipment.

**Environmental precautions**: Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers.

**Methods for cleaning up**: If emergency personnel are unavailable, vacuum or carefully scoop up spilled material and place in an appropriate container for disposal by incineration. Avoid creating dusty conditions and prevent wind dispersal.

7. **Handling and storage**

**Handling**: Do not ingest. Avoid contact with eyes, skin and clothing. Keep container closed. Use only with adequate ventilation. Do not breathe dust. Wash thoroughly after handling.

**Storage**: Keep container tightly closed. Keep container in a cool, well-ventilated area.
8. Exposure controls/personal protection

<table>

</tr>
</tbody>
</table>

Engineering measures: Use only with adequate ventilation. If user operations generate dust, fumes, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Personal protection

- **Eyes**: Safety glasses.
- **Skin**: Synthetic apron.
- **Respiratory**: Vapor respirator.
- **Hands**: Nitrile gloves.

Hygiene measures:

- Wash hands, forearms and face thoroughly after handling compounds and before eating, smoking and using the lavatory and at the end of the day. Follow good industrial hygiene practice.

HMIS Code/Personal protective equipment: J

9. Physical and chemical properties

- **Physical state**: Solid. (Crystals.)
- **Odor**: Odorless.
- **Relative density**: The only known value is 1.95 (Water = 1) (Cobalt sulphate).
- **Solubility**: Insoluble in cold water, hot water.

10. Stability and reactivity

- **Stability and reactivity**: The product is stable.
- **Incompatibility with various substances**: Reactive with oxidizing materials.
- **Hazardous polymerization**: Will not occur.
- **Conditions of reactivity**: Not available.
11. Toxicological information

**Acute Effects**

- **Eyes**: Irritating to eyes.
- **Skin**: Irritating to skin. May cause sensitization by skin contact.
- **Inhalation**: Harmful by inhalation. Irritating to respiratory system. May cause sensitization by inhalation.
- **Ingestion**: May be harmful if swallowed.

**Potential chronic health effects**

- Carcinogenic effects: Classified A3 (Proven for animals.) by ACGIH, 2B (Possible for humans.) by IARC [Cobalt sulphate]. Classified 2 (Reasonably anticipated to be human carcinogens.) by NTP [Cobalt sulphate].
- Mutagenic effects: Not available.
- Teratogenic effects: Not available.

</tbody>
</table>

**Ecotoxicity data**

- Environmental precautions: Harmful to aquatic organisms. May cause long-term adverse effects in the aquatic environment.
- Products of degradation: These products are sulfur oxides. Some metallic oxides.

13. Disposal considerations

**Waste disposal**: The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements.

14. Transport information

**Regulatory information**

- **UN/IMDG/IATA/DOT/TDG**: Not regulated.

15. Regulatory information

**United States**

- **HCS Classification**: Toxic material
- **U.S. Federal regulations**
  - TSCA 6 proposed risk management: Lead
  - TSCA 8(b) inventory: All components listed.
  - TSCA 12(b) annual export notification: Lead

Supplier notification: Cobalt sulphate

CAS number: 10124-43-3
Concentration: 60 - 100

SARA 313 notifications must not be detached from the MSDS and any copying and redistribution of the MSDS shall include copying and redistribution of the notice attached to copies of the MSDS subsequently redistributed.

State regulations:
Pennsylvania RTK: Cobalt sulphate: (environmental hazard, generic environmental hazard); Nickel: (special hazard, environmental hazard, generic environmental hazard); Lead: (environmental hazard, generic environmental hazard); Cadmium: (special hazard, environmental hazard, generic environmental hazard); Arsenic: (environmental hazard, generic environmental hazard)
Massachusetts RTK: Nickel; Lead; Cadmium; Arsenic
New Jersey: Cobalt sulphate; Nickel; Lead; Cadmium; Arsenic

WARNING: This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.

Ingredient name | Cancer | Reproductive | No significant risk level | Maximum acceptable dosage level |
-----------------|--------|--------------|---------------------------|--------------------------------|
Cobalt sulphate  | Yes    | No           | No                        | No                             |
Nickel           | Yes    | No           | No                        | No                             |
Lead             | Yes    | Yes          | 15 µg/day (ingestion)     | Yes                            |
Cadmium          | Yes    | Yes          | 0.05 µg/day (inhalation)  | Yes                            |
Arsenic          | Yes    | No           | 0.06 µg/day (inhalation)  | No                             |

Canada

WHMIS (Canada)

Class D-1B: Material causing immediate and serious toxic effects (Toxic).
Class D-2A: Material causing other toxic effects (Very toxic).
Class D-2B: Material causing other toxic effects (Toxic).

DSL: All components listed.

This product has been classified in accordance with the hazard criteria of the Canadian CPR and the United States OSHA. This MSDS contains all the information required by the CPR and OSHA, the American National Standard Institute (ANSI) Z400.1.

International lists:
This product, (and its ingredients) is (are) listed on national inventories, or is (are) exempted from being listed, in Australia (AICS), in Europe (EINECS/ELINCS), in Korea (TCCL), in Japan (METI), in the Philippines (RA6969).
16. Other information

Label requirements (U.S.A.)

CONTAINS MATERIAL WHICH CAN CAUSE CANCER.

HARMFUL IF INHALED.

CAUSES RESPIRATORY TRACT, EYE AND SKIN IRRITATION.

MAY CAUSE ALLERGIC RESPIRATORY AND SKIN REACTION.

MAY BE HARMFUL IF SWALLOWED.

CANCER HAZARD.
